STROMNESS ACADEMY

CURRICULUM FOR EXCELLENCE

Interdisciplinary Learning:
Halloween Ghost Stories & Soundscape
Library & Music Technology

Each year the Library creates a spooky atmosphere to bring to life the ghost stories and tales told during the lunchtime 'Spooky Happenings' event. To coincide with the new S3 Music Technology sound story project, pupils recorded, sequenced and edited individual, spooky soundscapes. These were then mixed into a single 30 minute soundscape and played as the aural wallpaper to the lunchtime Halloween tales.
